Program Mission Statement:

The program provides and maintains an excellent learning environment and curriculum that prepares students for entry-level, diagnostic radiographer positions.

Program Goals and Student Learning Outcomes

Goal One (clinical competency): Students/graduates will demonstrate clinical competency.
   - Outcome One: Properly prepare for radiographic procedures
   - Outcome Two: Evaluate radiographic images for quality

Goal Two (communication): Students/graduates will practice effective communication
   - Outcome One: Assess patients’ needs.
   - Outcome Two: Employs effective communication with faculty and hospital staff.

Goal Three (critical thinking): Employs critical thinking skills
   - Outcome One: Assess patients’ needs for uniqueness requiring adjustment in protocol.

Goal Four (professionalism): Students/graduates demonstrate professionalism
   - Outcome One: Practice professional behavior
   - Outcome Two: Determine the importance of professional development

Goal Five (employer/graduates): Would you recommend this program?
   - Outcome One: Graduates will be satisfied with their education.
   - Outcome Two: Employers will be satisfied with the graduates’ performance
